But it seems to me that I can better serve the cause of physical training, in which the public is beginning to take a livelier and more intelligent interest than hitherto, by foregoing any attempt to give an itinerary or description of my travels and observations, however interesting and instructive they were to myself, and by attempting to set forth, in as impersonal a way as possible, some of the conclusions at which I have arrived as the result of my personal study of gymnasia, play-grounds, public and military schools, and orthopaedic institutes in America, as well as in England, Germany, Switzerland, Russia, and Sweden, and to note some of the problems with regard to physical training which are occupying or seem likely soon to occupy the attention of educators in Baltimore, as well as in other parts of the country. As I shall not cumber what I have to say with references to authorities, or with my reasons for what may appear to be unsupported and arbitrary opinions, it seems proper for me to state that, before I was enabled to devote some months to the study of athletics and gymnastics in England d(iermanv. in i8Sr, I had had occasion to visit all the P.E.
